

Gainline — For Rugby Fans

A rugby app for matchdays

Summary

Gainline is an iOS app that brings rugby fixtures and live match experiences to rugby fans around the world. Fans can follow multiple teams in the app to see upcoming, recent and live fixtures. On the day of a match, scores and match events are delivered live, with automatically updating stats about the game, AI summaries at key points, and a live match feed of key events like scores and substitutions.

Availability

Globally, for iPhone, via the App Store. iOS 18 is required.
Full iPad and Apple Watch support is planned, but not yet available.

App Store URL: <https://apps.apple.com/gb/app/gainline-for-rugby-fans/id6642677437>

Price: FREE

League/Team Support

Gainline lets users follow any number of rugby teams across leagues including;

- English Premiership
- United Rugby Championship
- Top 14
- Super Rugby Pacific
- Major League Rugby
- Premiership Women's Rugby

And club competitions including;

- Champions Cup
- Challenge Cup

And international sides playing in tournaments including;

- Six Nations
- Women's Six Nations
- Rugby World Cup
- Women's Rugby World Cup
- The Rugby Championship

Features

Users can switch between views to see fixtures for the *teams they follow*, teams from the *leagues they follow*, or see *all available matches*. They can then swipe between *recent* matches, *today's* matches, and *upcoming* matches. Tapping on any match shows the match centre for that game, with an overview of the game, featuring a summary of the latest status; a tab that shows all the stats from the game; a timeline tab of all the key events of the match as they happen; and a tab to show the team lineups as soon as they become available.

Users can optionally opt-in to receive push notifications for the games of the teams they follow, and even every game in the leagues they follow. Notifications can also be received when the YouTube highlights for a match become available.

Future Plans

Gainline is continually being worked on, as we focus on improving the quality and breadth of our data, as well as adding new features for customers.

Just a few of the features that are actively in development include;

- Widgets
- Live Activities
- Richer Push Notifications
- iPad and Apple Watch support

The Team

Gainline is the first project from *Sportive Industries*, a small team of three Bath Rugby fans, based in Bath, UK. The app was designed by Hector Simpson (<https://hector.me>) and engineered by Red Davis (<https://red.to>) and Nick Jones (<https://nickjones.tech>)

Enquiries

Email press@gainline.app for more information or to enquire about a review or feature of Gainline in your publication. Additional high resolution marketing materials are available on request.
